Invoicing Summary

Invoice No	Supplier Invoice Number	Invoice Date	Due Date	Invoice Type	<b>F</b> Payment Status	Invoice Total	<b>C</b> Invoiced By
74810616	16174	2/27/2019	3/29/2019	Invoice	In Process	1,339.56 USD	Ramos, Evalisa
Total						1,339.56 USD	

### Getting Started

Anyone with access to eProcurement can view invoices. Procurement Management are the only staff that can create invoices. There are two types of invoices, Manual and System.

### Logging in:

1. Go to Gemini Portal.
2. Enter Net ID and password.
3. Click eProcurement.

### Automatic Invoices

1. Automatic invoices normally appear when purchase orders are created by “punch out” or catalog suppliers.
2. After the supplier receives a purchase order, the vendor will electronically “flip” the order into an invoice format and send it back to eProcurement. This can happen overnight or the next day. The invoice is marked as being **invoiced by the system**. On the “Invoice” tab, it is seen on “B” above.
3. Automated invoices created by forms look similar. The system automatically flips the PO after it is approved and creates an invoice. The **Invoiced by** name is the name of the PO owner (Requisition prepared by). See “A” above.

## **Manual Invoices**

Manual invoices are created by Accounts Payable. When supplier invoices are mailed or emailed, they are stored in Onbase. The Payable Specialist matches them up with a purchase order and adds the invoice. See "C" above. The name of the Payable Special appears as creating the invoice.

## **Credit Memos**

Credit memos are entered directly to Peoplesoft so that the encumbrances will be affected. Therefore, *credit memos will not appear in ePro*. There will always be a comment on the comment tab to reference the appropriate voucher number.

## **Invoice Status**

The invoice tab will show a payment status as listed below:

- **Payable** – the invoice has been sent to Peoplesoft for payment. See "D" above. The encumbrance should be still outstanding. Note: this does not mean the invoice will be paid immediately. Peoplesoft will hold the payment until the terms are met – net20 or **net03**.
- **Paid** - the invoice has been paid. See "E" above. The encumbrance should be cancelled.
- **In Process** – the invoice is waiting for a receipt to move to payable status. The encumbrance is still outstanding. See "F" above.
- **Cancelled** – the invoice is cancelled and will not be paid. The encumbrance is still outstanding.

**! Important:** Receipts are required for all invoices \$5,000 and greater. (See receiving job aids)

## **Pay Cycles**

Pay cycles are scheduled based on the payment method. Currently cycles are scheduled for 10am on Tuesday, Thursday, or Friday.

Supplier are paid net20. Employees are paid **net03**.

As required by the State of Texas Prompt Pay Act of 1987, suppliers are paid Net 20 after the latter of the following:

- The day the department receives the goods.
- The day the services were completed by the vendor.
- The day the Accounts Payable department receives the invoice.

## **Payment Number and Date**

1. When the invoice is paid, click on the Invoice tab to see a status of Paid.
2. The payment information is updated in eProcurement on the day after the payment was issued.
3. In the middle of the upper page there is a section titled "Payment Information."
4. The invoice payment details will include the accounting date, payment method, payment number, and the payment date.

Payment Information		?
Accounting Date	2/28/2019	edit
F.O.B.	Origin	
Payment Method	EFT	
Record No.	119065	
Record Date	3/1/2019	
Payment Handling Code	no value	

- Suppliers that are paid by EFT/direct deposit and have provided a remittance email address will receive an email notification with the payment information.
